Application/Control Number: 10/527,012

Art Unit: 3748

Page 2

STATEMENT OF REASONS FOR ALLOWANCE

The prior art cited herein fails to disclose a power plant using water river flowing water comprising a lower end-open frame, the frame being provided with floats containing on the inner side thereof a gas for floating the frame on the surface of the river flowing water or the sea flowing water, in such a manner that the shafts for supporting the conveyor on the inner side of the frame are positioned near the surface of the river flowing water or the sea flowing water, a generator being connected to one of the rotary shafts which support the conveyor so that the conveyor can be circulated, and which is adapted to be rotated in accordance with the circulation of the conveyor.

Art Unit: 3748

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Examiner Nguyen whose telephone number is (571) 272-4861. The examiner can normally be reached on Tuesday--Friday from 12:30 AM to 10:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas E. Denion can be reached on 571-272-4859. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
